

WELDING APPAREL

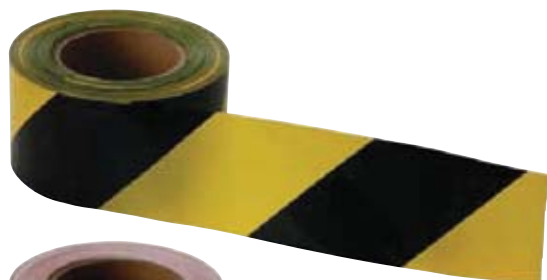

CURTAINS, BLANKETS & TAPES

Welding apparel, blankets, curtains & tapes

Good welding clothing is essential for protecting the welder from harmful radiation such as UV and IR radiation, as well as welding spatter. Steeldrill have a complete range of welders clothing in leather or lightweight proban materials.

BARRIER TAPES

Code:
921005

Description:
Black and yellow stripe 100mt x 75mm

Code:
921025

Description:
Red and white stripe, double sided 100mt x 75mm

Code:
921000

Description:
Red and white stripe, single sided 100mt x 75mm

Code:
921015

Description:
Yellow and black "Caution" 100mt x 75mm

Code:
921020

Description:
Red and white stripe "Danger Do Not Enter"
100mt x 75mm

Code:
921010

Description:
Red and white stripe "Danger" 100mt x 75mm

Ctn: 20

WELDING HOOD

Code: 800080

Description:
Leather welding hood.

WELDING JACKET

Code: 800000

Size: S, M, L
XL, 2XL,
3XL, 4XL

Description:
Leather welding jacket
Chrome leather heavy
duty jacket.

WELDING APRON

Code: 800045

Description:
Leather welding apron.

WELDING SLEEVES

Code: 800030

Description:
Leather welding sleeves.

SPATS

Code: 800055

Description:
Leather welding spats 12 inch.

GLOVE SAVER

Code: 800020
Left hand

Description:
Leather glove saver.
Aluminised back.

Code: 800025
Right hand

WELDING BLANKETS

Code:	Description:	Size:
161010	Fibreglass welding blanket	1.0 x 1.0 Mtr
161020	Fibreglass welding blanket	1.0 x 2.0 Mtr
161515	Fibreglass welding blanket	1.5 x 1.5 Mtr
161520	Fibreglass welding blanket	1.5 x 2.0 Mtr
162020	Fibreglass welding blanket	2.0 x 2.0 Mtr
162025	Fibreglass welding blanket	2.0 x 2.5 Mtr
162030	Fibreglass welding blanket	2.0 x 3.0 Mtr
162040	Fibreglass welding blanket	2.0 x 4.0 Mtr
160020	Leather welding blanket	2.0 x 2.0 Mtr
160320	Leather welding blanket	2.0 x 3.0 Mtr

WELDING CURTAINS & SCREENS

Steeldrill Welding Curtains provide protection from dangerous Ultra Violet radiation, from low to very high amperages, in excess of 1300 amps.

Curtains are available in three colours;

Yellow – normal visible light penetration. 15%
 Red – normal visible light penetration. 3.5%
 Green – normal visible light penetration. 3.5%

Features of Welding Curtains.

Transparent, enabling welder observation for safety purpose. Brighter working environment.
 Decreases arc glare.
 Eliminates closed-in feeling.
 High quality plasticiser maintains pliability in winter.
 Fire retardant to AS 1441.13
 Meets requirements of AS3957/NZS5852UV
 Stabilised. Electronically welded hems, seams & eyelets.

Features of Welding Screens

Heavy duty steel tube 25.5 x 25.5mm, wall thickness 1.7mm.
 Hot dipped galvanized with Polymer top coat.
 Internally coated with zinc silicate.
 Superior tube connectors, core 1.5mm walled steel tube, coated with 5mm impact resistant ABS and Nylon industrial swivel casters, 50mm solid wheels with brakes.
 360 Degree hinges on multi panel screens.
 All curtains for frame systems are in one piece, no risk of flash burn through gaps between panels.

WELDING CURTAINS

Code:	Description:	Size:
101813	Curtain c/w eyelets	1.8 x 1.3 Mtr
101820	Curtain c/w eyelets	1.8 x 2.0 Mtr
101827	Curtain c/w eyelets	1.8 x 2.7 Mtr
101834	Curtain c/w eyelets	1.8 x 3.4 Mtr
101841	Curtain c/w eyelets	1.8 x 4.1 Mtr
101848	Curtain c/w eyelets	1.8 x 4.8 Mtr
101855	Curtain c/w eyelets	1.8 x 5.5 Mtr

WELDING SCREENS

Code:	Description:	Size:
101122	Single panel screen	2.0 x 2.0 Mtr
101123	Single panel screen	2.0 x 2.3 Mtr
101222	Two panel screen	2.0 x 2.0 Mtr
101223	Two panel screen	2.0 x 3.0 Mtr
101322	Three panel screen	2.0 x 2.0 Mtr
101323	Three panel screen	2.0 x 3.0 Mtr
101422	Four panel screen	2.0 x 2.0 Mtr
101423	Four panel screen	2.0 x 3.0 Mtr

Curtains and screens can also be made to order.
